

Program Overview

FIND Food Bank, the Desert's Regional Food Bank, is working with middle school and high school students pursuing a specific extracurricular activity through the Opportunity Bank Scholarship Program. The Opportunity Bank Scholarship, valued up to \$800, will assist students in waiving fees associated with participation in extracurricular activities that may include, but are not limited to, registration fees, equipment, transportation, or tutoring. With the support of the Opportunity Bank Scholarship and through participation in an extracurricular activity, students will enhance their life skills, build teamwork skills, and boost their future success.

Studies show that the root causes of hunger are caused by lack of equitable access to healthy and culturally relevant foods, private and public benefits, and educational and professional opportunities. The Opportunity Bank Scholarship Program was created to address the root causes of hunger specific to educational attainment, work force development and financial literacy. This program will provide access for children to opportunities that can support their development of skill sets needed to thrive in these areas in order to help them break their cycle of food insecurity and poverty.

The program is designed as an ongoing scholarship, customized to fund specific extracurricular activities that build each student's skill sets. Scholarship funds will be paid directly to the organization of the activity the student is participating in. Eligible students will have the opportunity to re-apply for the scholarship annually if student still meets eligibility criteria. The program will use those activities to guide students to build education, career, and life goals and plans. In addition, the program will include financial literacy training to recipients and their families and provide personalized case management by FIND Food Bank Community Health Workers. The program design will also provide research data to study the effectiveness of the program and how to optimize its impact.
